Learning Unit 1.6.	ANALYTICAL COMPETENCIES
Activity Description	Background: We learn analytical competencies that characterise the candidate's ability to make decisions, innovation, analytical skills, problem solving, hands-on learning and attention to detail. Tasks: - The teacher shows students the presentation, explains what analytical skills are needed and why they are important; and answers students' questions. - The teacher asks some of the students: • Tell me about a situation where you had to formulate new ideas? • Tell me about a situation when you solved an unforeseen problem, how did you rectify the situation? • Describe a time when you did not have all the necessary information to solve a problem. What did you do then?
Duration	40 minutes
Format	Presentation
