

VIDEO INTERVIEW

Choose a quiet place and avoid external disturbance

Choose a clean place and a neutral background

HOW TO SET UP FOR A VIDEO INTERVIEW

1. Test your audio, video and internet connection using the same software as the interview

2. Sit so 10% of the screen above your head is empty

3. Do not get too close to the camera

4. Camera at eye level

5. Head and shoulders visible

6. Use headphones that help prevent weird echoes

7. Use natural light from window, lighting behind you creates shadows

8. Dress professionally from head to toe

9. Keep a copy of your CV and something to take notes close to you
